## *The Great Indoors*

### UK Tour

*“A joyous mix of gang vocals, wired guitar freakouts, epic build ups and some twisted melodies.”*  
- **Subba Cultcha**

Moneytree's EP triptych entitled *The Great Indoors* is about to be rounded off with the third and final part. The band are set to return in October with a UK tour to celebrate and accompany the release.

The record continues the theme of the previous two EPs with the band collaborating with various musicians to produce an organic, vibrant, idiosyncratic sound. It also makes for a compelling live show guaranteed to get your head nodding without resorting to so much as a single indie-rock beat. Catch them at one of the below dates:
