*"Start/Stop (has) a real punch. The best tracks, such as 'My Current State' and 'Answers', shimmer and shudder with repressed emotion, alongside the sheets of carefully crafted guitar noise" – **Rocksound***

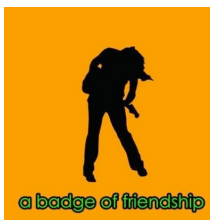

Following the massive critical acclaim for debut album **Start/Stop**, and a significant amount of airplay, including Fearne Cotton's show on BBC Radio 1 and Xfm's drivetime show with Ian Camfield, **Union Sound Set** return with the second single from their album.

Title track, **Cause & Resolve**, has all the makings of an indie dance floor anthem. It combines a strong pulsing rhythm section with reverb soaked guitars, creating a haunting melody beautifully juxtaposed by **Edd Simpson's** earthy, at times angelic, singing style. The song builds up to a chorus that's so explosive you just can't help throwing your hands in the air.

*"A belter of a record...it will be a shock if **Union Sound Set** don't set the indie world on fire"*  
- **4/5 Big Cheese**

"I Know", the single's b-side, could very well stand alone as it's own single. A strong backbone of harmonious vocals, guitar and bass leading up to a dirty, overdriven instrumental freak out allows **Union Sound Set** to really show off their technical capabilities as musicians.

A strong accompaniment to an impressive debut album, **Union Sound Set** could very well see themselves surpassing their influences, such as **The National** and **Explosions in the Sky**.
