

PRESS RELEASE

CUTLIST
Almanac

Artist: CUTLIST

Single / Album: Generator / Almanac

Release: 14th October 2022 / 28th October 2022

For fans of... Boards of Canada, Autechre, Mouse On Mars

Hailing from Dundee, Scotland, **CUTLIST** is a producer who creates a brand of ambient, downtempo techno that envelops the listener into his own, unique world.

Experimenting with celestial soundscapes, CUTLIST expertly creates a tense, trippy experience through his hypnotic use of synthesisers, programmed drums and guitar.

Generator, out on 14th October 2022, is CUTLIST's debut single. Taken from the debut album, **Almanac**, the track encapsulates the cerebral sound CUTLIST has cultivated over an eight track record. Building slowly from the first beat, **Generator** is a textured, poignant piece of electronica, meditative and autumnal in its approach. The project is influenced by a variety of artists and genres ranging from ambient styles to hip-hop and prog, combining to create a sound akin to *Peel Session*-era **Boards of Canada**.

CUTLIST was born during lockdown when tattoo artist, **Graham Cameron**, realised his goal of finally producing and releasing the music he has always craved. With an aim of taking the listener on a journey by exploring feelings of unease and tension, CUTLIST has compiled a collection of songs both challenging and eminently listenable.

Generator is out on **14th October** and is taken from the debut album, **Almanac**, due for release on **28th October 2022**.
