

SINGLE PRESS RELEASE

HALO DUST
HEROES

Artist: HALO DUST

EP: HEROES

Release: 29th September 2022

For fans of: Daft Punk, The Prodigy, MSTRKRFT, Ratatat

Having been together for some time, working as a live production team, collaborating with a who's who of UK and Canadian artists, the trio of **Scott**, **Trumpet Andy** and **Stef** became disillusioned with the music industry. However, a chance late night, Jager-filled meeting with **Kasabian's Serge Pizzorno**, at the infamous Shepherd's Bush haunt, **Bagel Bites**, changed everything.

With Jager coursing through his veins, Stef animatedly explained to Serge the music he wanted to create. Serge simply offered two pieces of advice, which remains a secret to this day; advice that set **HALO DUST** on the path to becoming the band they are today.

With the aim of exploring ideas around AI and inter-conscious communication, the band set about incorporating organic, live instrumentation with otherworldly synth soundscapes and thudding drum machine beats. Recruiting childhood friend **Paul Da Silva**, who's impactful, soulful vocal provide another dynamic layer to the sonics, HALO DUST were officially born.

The band's ability to effortlessly straddle genre is no more apparent than on debut single, **HEROES**. Taken from debut album *SINISTER ELECTRIC*, out in 2023, the track showcases HALO DUST's ability to infuse the futuristic spirit of **Daft Punk** with the expansive, psychedelic rock sounds of the likes of **Zeppelin**. Thanks to a late night chance meeting, HALO DUST have created a sound they can truly call their own, and the world is all the better for it.

HEROES is out on **30th September 2022**, via **JOLLY EXCITING**.
