“...oozing with abrasive edges and post-hardcore soundscapes...” -
The Vinyl District

The evolution of post-punk three-piece **Versari** is one of continuous propulsion. Their dark brooding sound, sits faultlessly against the seductive backdrop of Paris' 'City of Light'; a contrast of cultures, colliding to beautiful effect.

The UK release of their second album *Sous la Peau* in November 2020, saw their abrasive post-punk sound, and ambitiously painful literary outpourings, gain admiration from tastemakers and fans alike. Now, Versari have returned with a four track EP featuring three incarnations of single **Brûle**, an accompanying video starring contemporary artist **Jen-Luc Verna**, and a remix of **Des Images**.

Brûle, a menacing bass-heavy album standout, has been reimagined, remastered and shortened, and cuts deep to the heart of who Versari are. The EP will also include two remixes by artists including **Gareth Jones** (**Depeche Mode**, **Einstürzende Neubauten**, **Wire**, **Erasure**) and **Erica Nockalls** (**The Wonder Stuff**) as well as a **School Daze** remix of album track *Des Images*.

Formed in 2003, Versari are comprised of **Jean-Charles Versari** (vocals/guitar) former **Sloy** member **Cyril Bilbeaud** (drums) and former **Candie Prune** member **Laureline Prod'home** (bass/backing vocals). *Sous la Peau* also featured **Adrian Utley** (**Portishead**) on guitar, who produced the band's debut album *Ostinato*. Their discordant sound struck a chord with press far and wide with positive write-ups from the likes of **The Vinyl District**, **Fame Magazine**, **Tinnitus**, **Culture Addicts**, **Idiosyncratic Transmissions** and many more.

Brûle EP by **Versari** is out on **24th June 2021**.
